

# The Director of the UN's New York Office of the High Commissioner for Human Rights **Resigns**

31 October 2023

An aerial photograph of a city in ruins. The foreground and middle ground are filled with a vast expanse of rubble, including broken concrete, twisted metal, and debris. Numerous people are scattered throughout the scene, some standing in small groups, others walking through the wreckage. In the background, several multi-story buildings remain standing, though they appear damaged. The sky is overcast with grey clouds, and the overall atmosphere is one of devastation and tragedy.

“This is a text-book  
case of genocide.”

“The European, ethno-nationalist, settler colonial project in Palestine has entered its final phase, toward the expedited destruction of the last remnants of indigenous Palestinian life in Palestine.”

“What’s more, the governments of the United States, the United Kingdom, and much of Europe, are wholly complicit in the horrific assault.”

“Not only are these governments refusing to meet their treaty obligations “to ensure respect” for the Geneva Conventions, but they are in fact actively arming the assault, providing economic and intelligence support, and giving political and diplomatic cover for Israel’s atrocities.”

We salute the courage of Craig Mokhiber.  
We invite everyone to stand up for justice.  
We affirm that we are the people of the  
land, and we will not surrender.

We will remain here with dignity,

**No one will erase our existence.**
